- HTML5 | CSS | JavaScript | TypeScript | React | Nextjs | Redux | RTK | RTK Query
- Git | Jest | Unit Testing | Tailwind CSS | Material UI | Mantine | SCSS
- Frontend | English, Telugu, Hindi – All professional proficiency or above

Experience

Frontend Engineer Kofuku Idealabs *Hyderabad, INDIA* **02/2023 - Present**

Unearth:

- Enhanced the Unearth enterprise search app with crucial features, simplifying file uploads and integration with platforms such as Google Drive, OneDrive, Teams, Outlook, and Gmail. Incorporated user account integration for a seamless search experience. As a Frontend Engineer, managed the development of the entire search functionality, delivering comprehensive results from diverse user integrations.
- Implemented a smart chat feature powered by AI, enabling users to engage in effortless conversations and extract essential information from files efficiently.
- Conceptualized and executed the Knowledge Bank feature, empowering users to personalize online resources by saving and managing links on specific topics and customizing update frequencies for the latest information. This enhancement significantly improved time management.
- Elevated user engagement through the integration of a chat feature, facilitating direct interaction with personalized online resources.
- Leveraged **Next.js**, **React**, **RTK**, **RTK Query**, and **SCSS** modules to ensure a robust and user-friendly application.

Case Management:

- Transformed law enforcement record-keeping with a comprehensive application that tackles the ongoing challenge of storing case records.
- Implemented key features like case creation, FIR filing, secure document storage, and robust data management for stations and officers within each station.
- The application smoothly manages end-to-end information flow, covering case allocation, assigned officer tracking, and progress monitoring.
- Leveraged the latest technologies, including **Next.js**, **React**, **RTK**, and **RTK Query**, to create a cutting-edge solution that meets the specific needs of the police department.

Education

Masters in Development Azim Premji University *Bengaluru, INDIA* **07/2019 - 09/2021**
