Skills

- HTML5 | CSS | JavaScript | TypeScript | React | Nextjs | Redux | RTK | RTK Query
- Git | Jest | Unit Testing | Tailwind CSS | Material UI | Mantine | SCSS
- Frontend | English, Telugu, Hindi – All professional proficiency or above

Experience

Frontend Engineer Kofuku Idealabs *Hyderabad, INDIA* **02/2023 - Present**

Unearth:

- Enhanced Unearth enterprise search app using **Next.js**, **React**, **Redux Toolkit (RTK)**, and **RTK Query** for seamless integration with Google Drive, OneDrive, Teams, Outlook, and Gmail APIs.
- Developed user account integration to unify access across platforms, optimizing search functionality and user experience.
- Implemented an AI-powered smart chat feature with **NLP**, enabling intuitive file interactions and information extraction.
- Conceptualized and built the Knowledge Bank feature in **React** and **SCSS**, allowing users to manage and customize online resources, improving productivity and engagement.
- Led integration of interactive chat functionalities, enhancing direct user interaction with personalized online resources.
- Utilized **Next.js** for server-side rendering, **React** for dynamic UI components, **Redux Toolkit (RTK)** for state management, **RTK Query** for efficient API data fetching, and **SCSS** for modular styling, ensuring a robust and user-friendly application architecture.

Case Management:

- Transformed law enforcement record-keeping with a comprehensive application using **Next.js**, **React**, **Redux Toolkit (RTK)**, and **RTK Query**, addressing the challenge of efficient case record storage.
- Implemented core features such as case creation, FIR filing, secure document storage, and robust data management tailored for stations and officers.
- The application smoothly manages end-to-end information flow, including case allocation, assigned officer tracking, and progress monitoring, ensuring seamless operational workflows.
- Employed **Next.js** for optimal server-side rendering, **React** for dynamic UI components, **Redux Toolkit (RTK)** for state management, and **RTK Query** for efficient API data handling, delivering a state-of-the-art solution aligned with law enforcement requirements.

Education

Masters in Development Azim Premji University *Bengaluru, INDIA* **07/2019 - 09/2021**

Certifications

JavaScript	<u>HackerRank</u>	C170853BDC8D	See credentials
React	<u>HackerRank</u>	CF158E6C93C2	See credentials
Responsive Web design	<u>freecodecamp</u>		See credentials

Projects

- **Multi Todo App:** *React, TypeScript, Tailwind CSS* [Demo](#) [Github](#) **(08/2022)**
 - This application works with multiple to-do lists, and each to-do list maintains its individual tasks.
- **Invoice Generator app :** *React, React-hook-form, Material UI* [Demo](#) [Github](#) **(04/2022)**
 - An invoice generator application that creates dynamic invoices.
